

ADVANCED SENSING & THE SMART ENERGY REVOLUTION

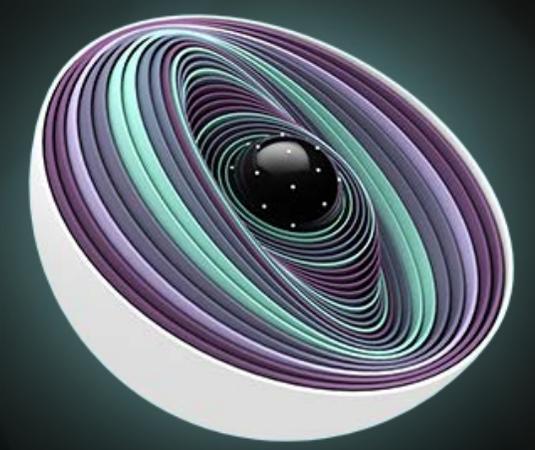

ADVANCED ENERGY CONFERENCE, MARCH 28, 2018

Aileen Currier
Director of Market Strategy, Jasmine Universe

JASMINE UNIVERSE

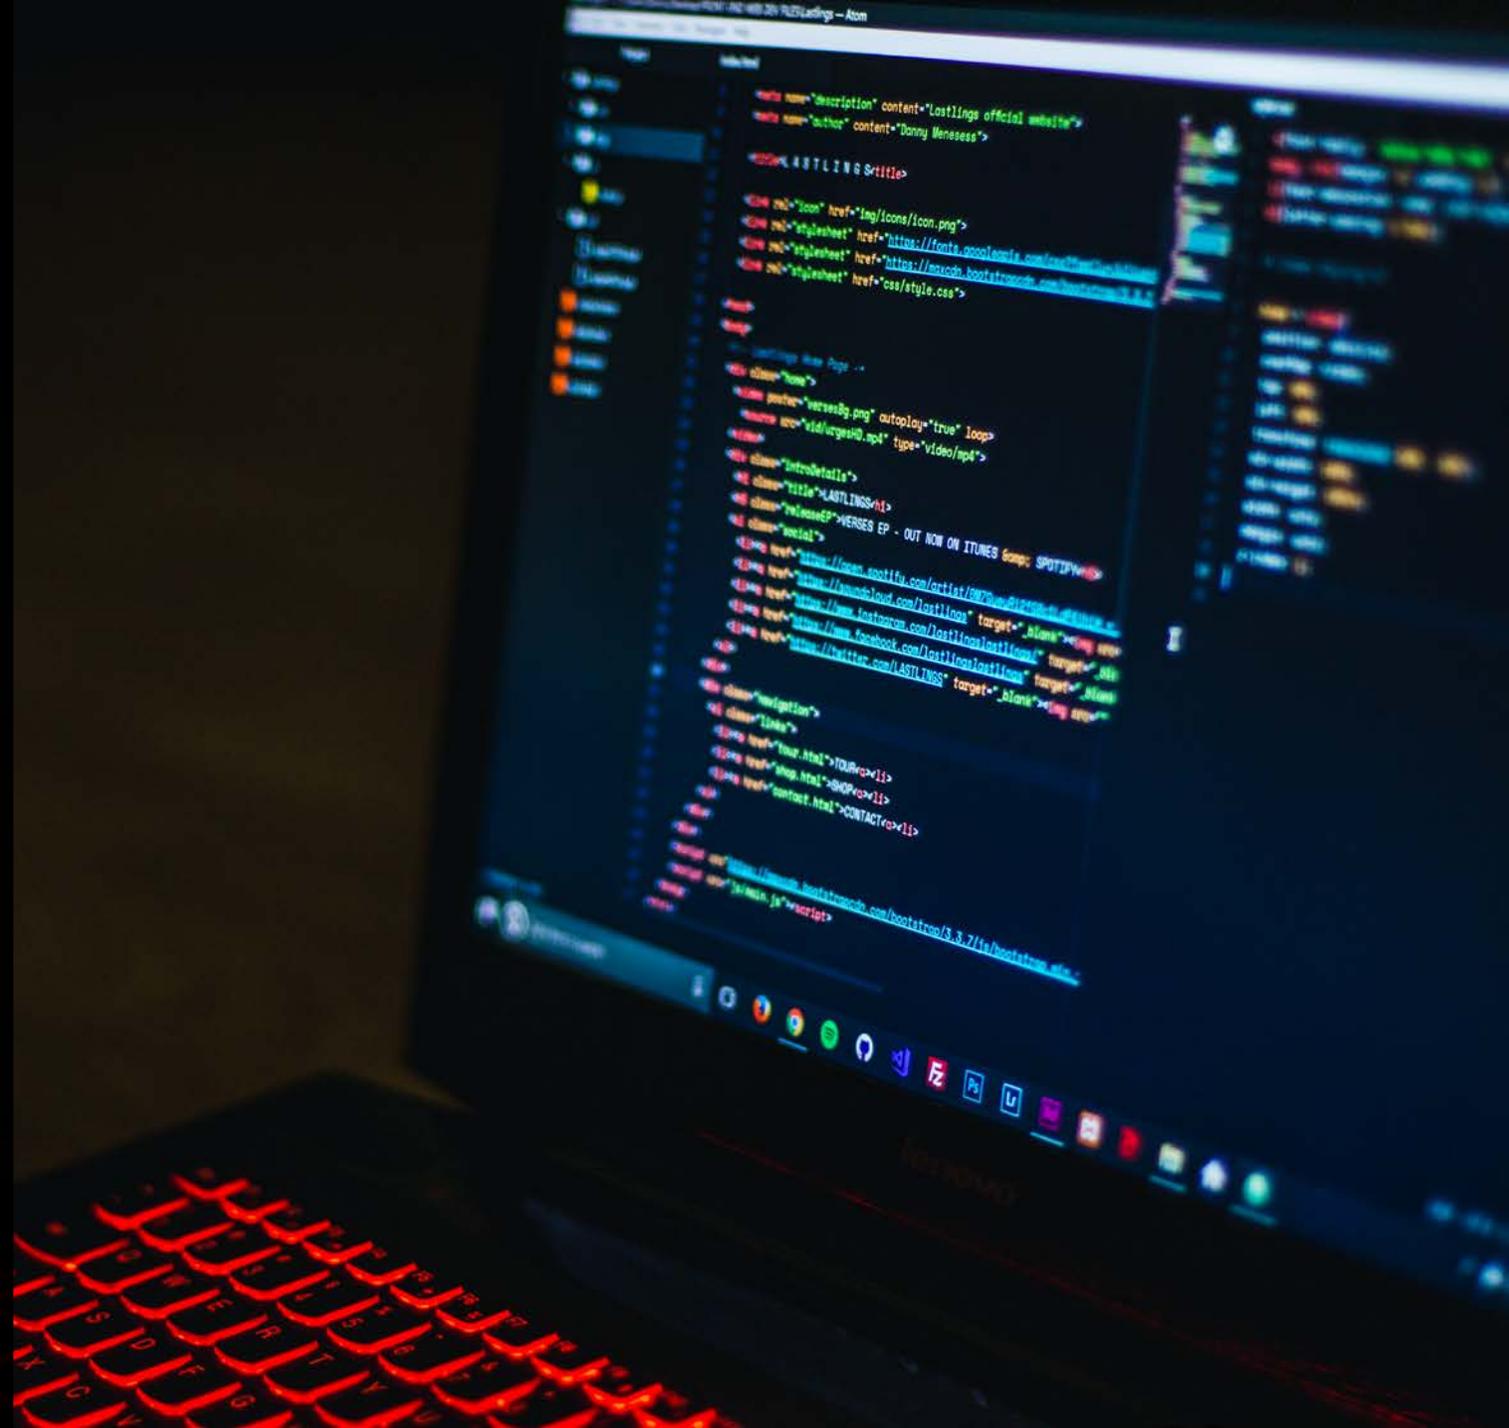

INTUITIVE ENERGY
MANAGEMENT

JASMINE

SOFTWARE DEVELOPMENT & APPLICATION

BUILDING A SYSTEM
THAT CREATES VALUE
FROM SENSOR DATA

SINCE THE LATE 1800'S SENSORS HAVE EVOLVED
DRAMATICALLY.

FROM SIMPLE PULLEY SYSTEMS TO ADVANCED,
MULTIDIRECTIONAL, HIGH PROCESSING IOT SENSORS.

PENETRATION OF
ADVANCED SENSING
REMOVES DATA
BARRIERS.

ALLOWING A SYSTEM TO
UNDERSTAND AND FULLFILL
CONSUMER NEEDS.

BUT COMPLEX SYSTEMS
ARE DIFFICULT TO
UNDERSTAND.

HOW DO WE DETERMINE WHY
AN ACTION WAS TAKEN?

AND WHAT ARE THE TRADE-
OFFS WE ARE WILLING TO
TOLERATE?

ADVANCED SENSING
REDUCES REDUNDANCY &
SPECIALIZATION IN ENERGY
MANAGEMENT.

RESULTING IN HIGHLY
ADAPTIVE & CUSTOMIZED
SOLUTIONS.

THANK YOU!

Jose Castillo
