

## **Engineering Ethics and Societal Impact ESE 301**

State University of New York at Stony Brook  
Fall 2019

**Instructor:** Donna L. Tumminello, BSEE, MBA  
Assistant Director, Office of Technology Licensing and Industry Relations

**Contact Information:**

Voice: 632-4163  
Department Office: 632-8770  
Facsimile: 632-1505  
E-mail: donna.tumminello@stonybrook.edu  
Office: Melville Library, 5<sup>th</sup> Floor, Room N5002 Office of Technology  
Licensing and Industry Relations

**Office Hours:** Monday and Friday 12:00 PM – 1:00 PM  
Melville Library Room N5002 5<sup>th</sup> Floor

**Course Prerequisite:** U3 or U4 standing

**There are three forms of participation required:**

- On-line and traditional lecture
- Class projects/activities as assigned
- Mid-term / Final reports and presentations

**Course Readings:** Engineering Ethics: Fourth Edition or later, Charles B. Fleddermann

**Lecture Time:** Tuesday and Thursday 8:30 AM – 9:50 AM

**Location:** To be determined

**Course Description:**

The study of ethical decisions confronting individuals and organizations in engineering and science. Related questions about moral conduct, character, ideals, and relationships of people and organizations involved in technical development are discussed. Ethics codes for engineers, computer scientists, and natural scientists are covered. Includes topics in law such as negotiation, antitrust, misappropriation, espionage, electronic communication privacy, computer fraud and abuse, reverse engineering, ownership and enforcement of patents and trademarks, and export controls.

**Course Objectives:**

Students will develop an awareness of ethical challenges they will face during their careers and will be prepared to respond appropriately using moral decision making processes. Exposure to intellectual property law and valuation of intellectual property rights.

**Goals:**

To provide students with an understanding of engineering ethics and the impact of engineering on society through student discussions, writing and case studies.

**Course Learning Outcomes:** Upon completion of the course, students will have

- Knowledge of ethical decisions confronting individuals and organizations in engineering and science.
- Awareness of moral conduct, character, ideals, and relationships of people and organizations involved in technical development.
- Awareness of the societal impact of technology including practical knowledge relating to patent/copyright/trademark/confidentiality and infringement
- How engineers can play a role in societal issues involving technology that have gray areas.

**Topics Covered:**

Week 1.	Professionalism and Codes of Ethics
Week 2.	Understanding Ethical Problems
Week 3.	Ethical Problem Solving Techniques
Week 4.	Risk, Safety, and Accidents
Week 5.	The Rights and Responsibilities of Engineers
Week 6.	Ethical Issues in Engineering Practice – Midterm Case Analysis Due
Week 7.	Intellectual Property Patents
Week 8.	Intellectual Property Trademarks/Copyrights
Week 9.	Intellectual Property Law – Ownership/Enforcement
Week 10.	Intellectual Property Law – Licensing/Antitrust/Export Controls
Week 11.	Intellectual Property Infringement
Week 12.	Project Management - Teamwork
Week 13.	Project Management – Leadership Skills
Week 14.	Project Management – Final Case Analysis Due

**Class/laboratory Schedule:** 3.0 lecture hours per week

<b>Student Outcomes</b>	<b>% contribution*</b>
On the following "3 a-k" list, please check those topics which are covered within the course:	
<input type="checkbox"/> (a) ability to apply knowledge of math, engineering, and science	
<input type="checkbox"/> (b1) ability to design and conduct experiments	
<input type="checkbox"/> (b2) ability to analyze and interpret data	
<input type="checkbox"/> (c) ability to design system, component or process to meet needs	
<input type="checkbox"/> (d) ability to function on multi-disciplinary teams	
<input type="checkbox"/> (e) ability to identify, formulate, and solve engineering problems	
X (f) understanding of professional and ethical responsibility	60
X (g) ability to communicate effectively	20
X (h) broad education	5
<input type="checkbox"/> (i) recognition of need an ability to engage in life-long learning	
X (j) knowledge of contemporary issues	10
X (k) ability to use techniques, skills, and tools in engineering practice	5
<input type="checkbox"/> (l) an ability to communicate and/or collaborate effectively online	
* Assume that the total contribution of any course will be 100%. Use the right hand column to indicate the approximate percent that the left hand columns contribute to the overall course.	

**Course Assessment:**

Class participation, 20%

Mid-term report & presentation, 40%

Final report & presentation, 40%

**NOTE:**

If you have a physical, psychological, medical, or learning disability that may impact your course work, please contact Disability Support Services at (631) 632-6748 or <http://studentaffairs.stonybrook.edu/dss/>. They will determine with you what accommodations are necessary and appropriate. All information and documentation is confidential.

Students who require assistance during emergency evacuation are encouraged to discuss their needs with their professors and Disability Support Services. For procedures and information go to the following website: <http://www.sunysb.edu/ehs/fire/disabilities.shtml>
